These skills not only helped me crack CLAT but also made the transition to law school much smoother. *Kompass was the right place which gave a direction to my educational journey. Coming from a rural background with uneducated & farming parents who supported my dreams, I faced fear and uncertainty about my future. I found guidance and support from Kompass, which provided an excellent exposure through educational tours and guest lectures. Kompass became my guiding light in the sea of learning. I encourage parents not to limit their children's education due to location. If my parents had thought that way, I wouldn't be where I am today. I credit my success to the opportunities Kompass provided.*
